

MAKERS OF QUALITY  
CONFECTIONERY SINCE 1903

I have used Proglaze Ltd several times recently for a variety of both small and medium sized re-glazing projects.

As part of a world class organisation such as Cadbury, we regard food hygiene, quality, and health and safety as matters of paramount importance to us. Proglaze Ltd have provided us with a high standard of tailored risk assessments encompassing all relevant quality and safety considerations, and have carried out the work to a high standard of installation. As such I will have no hesitation in considering Proglaze as a preferred contractor for any future glazing work.
