

# SOLUTIONS FOR CARGO TRAILERS

# ADDRESSING CRITICAL NEEDS OF CARGO TRAILER MANUFACTURERS

Tremco provides cargo trailer manufacturers with a range of premium adhesive and sealant options that can reduce the need for multiple products and the time needed to apply them — simplifying production and lowering overall costs. Engineered for long-term durability, Tremco products protect against air and water penetration at critical connections such as roof and panel seams.

High-performance products for long-term durability

88

Proven 88-year track record in sealants and weatherproofing

Dedicated OEM team for on-site technical support

Full range of products in-stock and readily available

## OneSeal™ Roof Sealer

Watertight, flexible spray seal for minor but long-lasting patch and repair projects

- Ideal for quick spot repairs
- Available in black, white, gray and clear
- Undercarriage coating
- Fast-drying, quick-filming

## Chem-X™ Pro

Single-component, hybrid elastomeric adhesive/sealant with excellent green strength

- High green strength means instant grab-and-hold of metal panels
- Powerful bonding for post-to-panel, panel-to-panel, subfloors and more
- Doubles as a sealant against moisture/water infiltration
- Low VOC and solvent-free formula means no odor
- High elongation of 350% provides flexibility and extends product life

## TremPro® 644/645

One-part, industrial-grade silicone sealants

- Quick-skinning silicone sealant prevents passage of moisture and water
- Excellent adhesion to aluminum, glass, metal, and metal alloys with no primer needed
- Permanent elasticity allows for movement and flex without breaking or cracking

## TremPro® 638 SSL

Premium semi-self-leveling primary penetration sealant

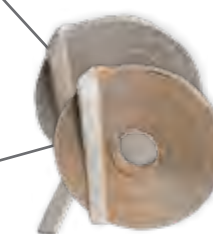

- Semi-self-leveling polyurethane sealant for roof seams
- Designed to seal out water and withstand movement in lap and butt joint applications
- Demonstrates excellent adhesion to steel, painted metal, wood, vinyl, and composite surfaces
- Available in 20 ounce sausages, quart cartridges, and 50 gallon drums

## Tapeseal™ 303/404

Non-hardening extruded butyl/putty sealant tapes combine the ease of trimmable putty with the adhesion of butyl

- Under moldings, trim pieces and nose caps
- Around windows, doors and vents
- Good adhesion to metal, wood, concrete, glass

## Custom Rubber Extrusions

Rubber compounds custom-extruded in-house by Tremco to your exact specifications

- Custom dies and several rubbers are available to ensure a proper fit for your application
- Applications include weatherstripping around windows and doors, penetration seals, oxidation buffers and other gasket conditions

# ABOUT US

With decades of experience in the design, development and manufacture of products for use in commercial construction and original equipment manufacturing, Tremco has become the industry leader in ensuring performance of the highest-risk connections on buildings and other structures.

Along with affiliate Chemtron International, we bring over 50 high-performing, specialized products for a variety of applications within the OEM space. After selecting the appropriate product type — sealant, adhesive, tape, gasket or coating — we can determine the perfect solution for your application.

Tremco and Chemtron are part of RPM International, Inc., whose subsidiaries employ 13,000 people worldwide, and manufacture high-performance coatings, sealants and specialty chemicals in 116 facilities across 26 countries.

88

Tremco has been a technology leader in the construction sealants and weatherproofing industry for over 88 years. We serve OEMs and aftermarket service providers with a comprehensive product line, plus onsite technical and engineering support.

58

Calgary-based Chemtron is a leading manufacturer of adhesives, sealants and tapes. The company has researched, developed and formulated products for construction and related industries since 1958.

AA  
MA

Our sealants, extruded tapes and gaskets are independently tested and approved as verified components for use in AAMA Certified Products.

30

Chemtron produces over 30 products including adhesives, caulks, glazing tapes, mastics, sealants and related compounds.

TOP  
5

Tremco's Ashland facility is one of the top five specialty rubber and gasket extruders in North America, extruding more than 250 million feet per year and is ISO 9001 and 14001 certified.

52K

Chemtron remains dedicated to formulating innovative products from its 52,000-square-foot manufacturing facility.
